

Test Seeker Email: testseeker@gmail.com | Location: Adama, Ethiopia | GitHub: github.com/testseeker | LinkedIn: linkedin.com/in/testseeker

PROFESSIONAL SUMMARY Motivated Computer Scientist and Full-Stack Developer with hands-on experience building web applications, machine learning tools, and job portal solutions. Passionate about leveraging AI and modern web technologies to solve complex problems. *(Note: This resume profile is generated for system testing purposes).*

TECHNICAL SKILLS

- **Languages:** Python, JavaScript, PHP, HTML5, CSS3, SQL
- **Frameworks & Libraries:** React.js, Bootstrap, Node.js
- **Database & Tools:** MySQL, Git, GitHub, Figma, REST APIs

PROJECTS

AI-Powered Job Portal & Resume Analyzer | Full-Stack Developer

- Developed a web application using React and PHP/MySQL to streamline job discovery and application tracking.
- Integrated intelligent matching features to compare candidate skills against active job descriptions.
- Designed an automated application flow pre-filling applicant profile data and saved resumes.

Test Application & UI Prototype | Developer

- Built interactive frontend components for profile management, dynamic saved jobs views, and status badges.
- Implemented backend logic for user authentication, conditional application tracking, and dynamic form routing.

EDUCATION

Bachelor of Science in Computer Science Adama Science and Technology University (ASTU)
— Expected Graduation: 2026

CERTIFICATIONS & ACHIEVEMENTS

- **Full-Stack Web Development:** Proficient in front-end design systems and relational database design.
- **Academic Projects:** Active developer in hands-on software engineering and AI application coursework.
